

time of a man stricken with epilepsy. He would recover, they thought, and then they would carry out the sentence of the law by placing him in the chair. Limestone quickly connected the prison apparatus with the electric light plant and in an hour all was ready for the execution. Taylor continued to grow stronger and was given an injection of morphine. A small dose of chloroform was also administered. He was then carried bodily to the chair, which had been repaired, and was strapped into a sitting position. The current was again turned on, the body straightened up, and for half a minute 1,500 volts passed through Taylor's unconscious form and he was pronounced dead. The first electrocution took place at 12:45 and the second at 1:05.

Taylor's Crime.
Taylor was 27 years old and was executed for killing Solomon Johnson, a fellow convict in Auburn prison, where both were serving terms. Taylor was serving a term for burglary committed in Saratoga. He had previously served a term in Clinton for burglary. In April, 1900, he attempted to escape from Auburn, but was caught. On September 2, last, Taylor, who was a white man, and accompanied his victim's body in the prison factory. He afterwards told of his crime and showed the knife he had used in the crime. Taylor was put in prison and in January last was tried and convicted for murder. He was then sentenced to die by electricity during the week beginning March 5, but was granted a stay pending an appeal. His appeal was denied and the work beginning July 24 was set for his death. Taylor was a fairly large man, over six feet in height and weighing 175 pounds. He was a violent brute and gave the prison officials a great deal of trouble. He walked to the electric chair this morning with an assumption of bravado, but broke down when seated in it.

WITH PARIS GREEN.
Maud McKibben Charged With Killing Her Father and Sister.

St. Louis, Mo., July 22.—The coroner today decided that Maud McKibben, aged 17 years, was responsible for the death, by poisoning, of her father and sister, and also will be arrested. The verdict was reached after a report by the city chemist to the effect that he had found in the remains of the deceased and in the food partaken by them traces of arsenic, copper and other ingredients of which Paris green is compounded. The case is one of the most sensational in the history of the city. On June 21 the McKibben family, with the exception of Mrs. McKibben, who has been separated from her husband for several years, partook of a family dinner at the residence of Mrs. Charles Stewart, a married daughter. Maud assisted in preparing the food and was the only member of the party who did not eat dinner. Her refusal was attributed to a severe headache. Soon after the meal the participants became violently ill. No physician, however, was summoned until late in the evening. The father died at 10:30, the mother two days later, and Mrs. Stewart died on June 22. It was learned that Maud had been unsuccessful in an attempt to procure Paris green from a neighboring drug store, and this fact, together with the knowledge that she was jealous of her mother and had made threats of revenge for being arrested on suspicion of stealing money from her father, led to her arrest. At the preliminary examination Maud asserted her innocence and was released pending the coroner's verdict.

WAUWATONA'S MYSTERY.

St. Louis, Mo., July 22.—Edmund Roseman, a real estate man of St. Louis, who at a private residence in Milwaukee with an ugly bullet hole in his head, is the subject of a mystery surrounding his case. Three months ago he was admitted to the sanitarium at Wauwatona for treatment for alcoholism. He left the institution about two weeks ago, but said in the village that he had been in the time. Last evening he called at the river station of J. L. Norton and engaged a horse and buggy for the evening. He was accompanied by a handsome young woman, who is said to have been an attendant at the sanitarium, until several weeks ago. About 10 o'clock last night the young woman drove the horse into the city stable and left it, making no explanation as to why Roseman did not return in it. At 6 o'clock this morning Roseman was found lying in a truck near the railroad track apparently dying with a bullet wound in his forehead. The suspicion is that Roseman tried to commit suicide, although the strange manner in which the horse and buggy was returned to the city stable has aroused suspicion that somebody shot Roseman. An investigation is in progress. Roseman is single, about 30 years of age and is said to have enjoyed prosperity in the real estate business in St. Louis.

Fourth, six furlongs—Dandee won, Nancy Hester second, Gladstone third, time 1:17.

It is now known beyond peradventure that S. H. Manser of Lansing, who was arrested on the floor of a Chicago and who apparently died of exposure, took refuge with a friend.

FAST TIME THE RULE

Little Albert Wins the Cleveland Free-for-all Trot

IN FIVE VERY LIVELY HEATS.

Favorites Did Not Pace Well—Picks Declared Off on a Crooked Pacing Race—Other Race News.

CLEVELAND, O., July 22.—The greatest race in the history of the turf world was trotted this afternoon at the famous Cleveland course in this city. It was the free-for-all race with such noted horses as Hyland T., Little Albert, Muta Wilkes, Magnolia, Alvin, Walter E., Greenleaf and others entered. The time made in the race once more restored to the track in this city the laurels that were temporarily wrested from it by other associations. There were five heats trotted in the free-for-all. The average time of the heats was 2:11-1/4, which lowers all records for five heats. The race was not won by a favorite. In the betting before the race Hyland T. and Hamlin's Nightingale were selected as the horses that ought to go fast enough to win. Little Albert was considered good for a heat but not much more than that. To the surprise of the racing fraternity he roared off the first mile in 2:10 and followed that up with a mile in 2:11. Then he made a misstep on the home stretch that cost him his chance to win the race in three straight heats. Walter E. was so close on his heels that he almost slipped and he at once took advantage of the getting's slip. The fourth heat was won by Walter E. because he showed himself the better horse. In the fifth heat Walter E. was in a good position to win as Little Albert but he lost his stride just before he reached the wire and with it the race.

Elard's Surprising Speed.
The trotting race developed some unexpected speed. The first heat was trotted at a mark far below that generally anticipated and was won by a horse that was not even considered dangerous. Elard had been a strong and steady favorite from the time the first pool was sold. While Lee's Pilot did not make quite speed enough to win he gave Elard a hard chase and the bay stallion had to go at his best in every heat of the race. A favorite was thrown down in the race for 2-year-olds when Director's Flower defeated Chris Lane with ease. The latter was thought to be a sure winner upon the form that he had shown in the circuit races this season, but Director's Flower trotted the fastest 2-year-old race of the year and got the money. The 2:14 pacing race continued from the day before, was won by Hal Dillard. Paul was the favorite, and after the race the judges declared all the pools on the race off, as they believed there had been dishonesty in the race. Paul was supposed to be at fault, and it is said that steps will be taken to punish the offenders. Director trotted a mile to beat the record of Maud S. to an old-fashioned sulkey. He went in 2:14. The half was made in 1:04, and if the horse had not lost his stride the chances are he would have been successful. There was an enormous attendance.

A GENEROUS OFFER.

Dr. Darrin Will Treat the Rich and Poor, the High and Low, All Classes, Grades and Stations, Free of Charge, From 10 to 11 a. m. Daily.

The art of treating diseases by electricity is, like many other good things in medicine, not new, but its principle of action is little understood. That its employment at the present day makes it practically a new discovery. The medical profession at large, not possessing the true secret of the proper remedies to use, are still blundering in the dark, and throwing discredit through their ignorance on one of the greatest medical advances of the present day.

For the benefit of those to whom this plan of cure is new, and who may be seeking aid, though distrustful, after many failures of everybody and everything, Dr. Darrin makes the extraordinary and most generous offer to treat the afflicted free of charge, between the hours of 10 and 11 a. m. each day until further notice, to prove to the community at large his ability and skill.

Owing to the "hard times" the Dr. Darrin have also reduced their professional fees for those who are willing to pay to the low rate of \$5 per month for each and every disease until cured, except in surgical and special complicated cases.

The Dr. Darrin can be consulted free at all hours at their offices, 321 Jackson street, near corner Fulton, Grand Rapids, Michigan. Office hours, 10 to 5 daily; evenings, 7 to 8; Sundays, 10 to 12.

They make a specialty of all diseases of the Eye, Ear, Nose and Throat, Catarrh and Deafness, Bronchitis, La Grippe, Consumption, Dyspepsia, Heart, Liver and Kidney Diseases and all nervous, chronic and private diseases, such as loss of manhood, blood taints, syphilis, gleet, gonorrhea, stricture, spermatorrhea, seminal weakness, loss of desire of sexual power in man or woman.

All peculiar female troubles, irregular menstruation, leucorrhoea, displacements, etc., are confidentially and successfully treated, and they will under no circumstances take a case that they cannot cure or benefit.

Dr. Darrin will send to any address their Electro-Magnetic remedies on the receipt of \$5, and full symptoms of the disease. One visit to the office is desired, but is not necessary in all cases. Inquiries by mail promptly answered.

THE REDDEST OF RED LETTER DAYS

HAVE COME FOR SPRING & COMPANY'S PATRONS.

A little relaxation, a moment's pause of the throbbing trade pulse that has kept hands flying and feet pattering so many months of '93, enables us to inspect the condition of each department with reference to the needs of our patrons. In the hurry and rush incident to a great business it is not strange that each department is still STUDDED WITH GEMS of the first water. Some goods that we prophesied would have a short store life are happily left to brighten the plainer lines. A great price wrecking will now afford the public a chance to possess these precious gems, in many instances, at much less price than even the manufacturers ever dreamed of realizing. Thousands of dollars worth of seasonable merchandise will be cast into

THE MIGHTY MAELSTROM OF BUSINESS

That will follow this announcement. No half way business about it when we undertake to benefit our patrons. We quote a few items for the coming week and invite a careful investigation. Goods that bear the stamp of value so distinctly that people will jump to secure them.
